

Faridpur Engineering College
Department of CSE
1st year 1st semester Examination
CT-1, Chem -1104, Chemistry.

Time: 40 minutes

Marks: 20

1. Explain why the last electron of K enters into 4s orbital but not in the 3d orbital.
2. Calculate the maximum number of electron present in 3rd energy level of an atom using four quantum numbers.
3. Write the electronic configuration of following atoms or ions : Sc, Cu, Fe, $^{2+}$ Br.⁻
4. Explain the ionic radius of K⁺ is smaller than Cl⁻.
5. Explain the electron affinity of Cl is more than F.
